

SYARIFAH DANIA BINTI SYED ABU BAKAR

Johor Bahru, Malaysia | syarifahdania8504@gmail.com | (+60) 18-7732577
<https://www.linkedin.com/in/syarifahdania8504/>

SUMMARY

A Data Engineering student at UTM who loves building things that scale. I bridge the gap between heavy-duty backend data pipelines and practical business tools (like SAP and Metabase dashboards). I'm naturally curious, quick to pick up new tech, and look forward to collaborating with teams to solve complex, real-world data problems.

EDUCATION

Kolej Matrikulasi Johor (KMJ) Tangkak, Johor	2022 – 2023
Computer Science: CGPA: 3.83	
Universiti Teknologi Malaysia (UTM) Skudai, Johor	2023 - 2027
Bachelor Of Computer Science (Data Engineering) With Honours: CGPA: 3.50	

PROJECTS

Big Data Performance & Parallel Processing Optimization

- Designed and executed a performance benchmarking suite in Google Colab comparing data handling strategies for massive datasets.
- Implemented parallel processing strategies utilizing Dask and Polars alongside PyArrow, significantly reducing data processing latency.
- Optimized memory footprint and execution times for complex, large-scale data manipulation tasks.

End-to-End Data Engineering & BI Pipeline

- Developed an ETL data pipeline using Apache Spark to process large CSV datasets and convert them into Parquet format for optimized storage and query efficiency.
- Designed and implemented a robust Star Schema data warehouse to centralize analytical data and streamline business intelligence metrics.
- Deployed Metabase within a Docker container and built interactive, real-time dashboards for business intelligence, data exploration, and stakeholder reporting.

SAP Enterprise Applications & Dashboard Optimization

- Engineered a Student Hostel Registration System using SAP Build Apps, designing the underlying transactional database architecture and custom record update logic.
- Streamlined industrial workflows by designing an automated IW51 Maintenance Notification Dashboard utilizing SAP Screen Personas to enhance user experience and data accessibility.

- Explored enterprise automation workflows using SAP Build Process Automation and unified data analytics through cloud ecosystems.

SKILLS

Programming: Python, PHP, HTML, CSS, MySQL, Dart (Flutter), JavaScript

Database Management: MongoDB, MySQL, PostgreSQL

Business Intelligence: Power BI, Alteryx, Metabase

Cloud Tools: Azure Data Factory, Databricks

CERTIFICATION

- Microsoft Certified: AZ-900 (Azure Data Fundamentals)
- AWS Academy Graduate – Cloud Foundations (In Progress)
